Activation-recovery interval
Global endocardial electrical restitution in human right and left ventricles determined by noncontact mapping, 1067

Acute aortic dissection
Acute aortic dissection presenting with congestive heart failure: results from the International Registry of Acute Aortic Dissection (correspondence), 733

Acute coronary syndromes
Cardiac magnetic resonance-directed intervention in non–ST-segment elevation acute coronary syndrome, 563
Circulatory secretory phospholipase A_2 activity predicts recurrent events in patients with severe acute coronary syndromes, 1249
C-reactive protein increase in unstable coronary disease, 1496
Differences in the management and prognosis of women and men who suffer from acute coronary syndromes, 1845
Early and late benefits of high-dose atorvastatin in patients with acute coronary syndromes, 1405
Effects of clopidogrel on the rebound hypercoagulable state after heparin discontinuation in patients with acute coronary syndromes (correspondence), 1582
Enhanced plasma levels of oxidized low-density lipoprotein increase circulating nuclear factor-kappa B activation in patients with unstable angina, 799
Evolution in cardiovascular care for elderly patients with non–ST-segment elevation acute coronary syndromes, 1479
Gender, race, and cardiac care (editorial), 1852
Implications of blood transfusions for patients with non–ST-segment elevation acute coronary syndromes, 1490
Influence of race on health status outcomes one year after an acute coronary syndrome, 1838
Ischemic versus nonischemic chest pain in the emergency room (editorial), 928
Potential relevance of the multiple lipid-independent (pleiotropic) effects of statins in the management of acute coronary syndromes, 1425
Pregnancy-associated plasma protein-A and acute coronary syndromes: cause or consequence? (letter), 1583
Relationship between uncontrolled risk factors and C-reactive protein levels in patients receiving standard or intensive statin therapy for acute coronary syndromes in the PROVE IT-TIMI 22 trial, 1417
Troponin levels and acute coronary syndrome (letter), 741
Year in non–ST-segment elevation acute coronary syndromes, 906

Acute decompensated heart failure
Acute decompensated heart failure (editorial), 65
In-hospital mortality in patients with acute decompensated heart failure requiring intravenous vasoactive medications, 57

Adenosine A_{2A} receptor agonists
Impact of selective adenosine A_{2A} receptor agonists on cardiac imaging, 2076

Adipocytes
Release of C-reactive protein in response to inflammatory cytokines by human adipocytes: linking obesity to vascular inflammation (correspondence), 1112

Adolescents
Task Force 6: training in transition of adolescent care and care of the adult with congenital heart disease, 1399

Aerobic capacity
Diabetes lowers aerobic capacity in heart failure (correspondence), 930

AFFIRM trial
Cardiopulmonary exercise testing in the clinical and prognostic assessment of diastolic heart failure, 1883
Does rhythm control improve functional status in patients with atrial fibrillation? (editorial), 1900

African Americans
Gender, race, and cardiac care (editorial), 1852
Influence of race on health status outcomes one year after an acute coronary syndrome, 1838
Operative and late coronary artery bypass grafting outcomes in matched African-American versus Caucasian patients, 1526

Afterload
Reduced systemic arterial compliance impacts significantly on left ventricular afterload and function in aortic stenosis, 291

Aggregometry
Overestimation of platelet aspirin resistance detection by thrombelastograph platelet mapping and validation by conventional aggregometry using arachidonic acid stimulation, 1705

Aging
See also Elderly
Age-associated aortic stenosis in apolipoprotein E-deficient mice, 134
Normal vascular aging: differential effects on wave reflection and aortic pulse wave velocity, 1753

Aldosteronism
Diuretics and bone loss in rats with aldosteronism, 142

Allens test
Vascular communications of the hand in patients being considered from transradial coronary artery angiography—Is the Allens test accurate?, 2013

Ambrisentan
Ambrisentan therapy for pulmonary arterial hypertension, 529

Ambulatory blood pressure
See also Blood pressure
Aspirin administered at bedtime, but not on awakening, has an effect on ambulatory blood pressure in hypertensive patients, 975
Ambulatory blood pressure monitoring
Prognosis of "masked" hypertension and "white-coat" hypertension detected by 24-h ambulatory blood pressure monitoring, 508
Amyloidosis
Noninvasive etiologic diagnosis of cardiac amyloidosis using ^{99m}Tc-3,3-diphosphono-1,2-propanodicarboxylic acid scintigraphy, 1076
Anatomy
Coronary venous anatomy, 68
Angina pectoris
Blinded, randomized, placebo-controlled trial of percutaneous laser myocardial revascularization to improve angina symptoms in patients with severe coronary disease, 1812
Efficacy and safety of fasudil in patients with stable angina, 1803
Enhanced plasma levels of oxidized low-density lipoprotein increase circulating nuclear factor-kappa B activation in patients with unstable angina, 799
Risk stratification of patients with classic angina pectoris and no history of coronary artery disease by dobutamine stress echocardiography (correspondence), 730
Angiogenesis
Angiogenesis, arteriogenesis, and diabetes (editorial), 835
Angiography
Clinical and angiographic outcome after implantation of drug-eluting stents in bifurcation lesions with the crush stent technique, 613
Diagnostic accuracy of noninvasive coronary angiography using 64-slice spiral computed tomography, 552
Improving the quality of coronary bypass surgery with intraoperative angiography, 1521
Physiologic assessment of jailed side branch lesions using fractional flow reserve, 633
Quantification of obstructive and nonobstructive coronary lesions by 64-slice computed tomography, 147
Angioplasty
Combined Angioplasty and Pharmacological Intervention Versus Thrombolysis Alone in Acute Myocardial Infarction (CAPITAL AMI Study), 417
Duration of ischemia is a major determinant of transmurality and severe microvascular obstruction after primary angioplasty, 1229
Long-term results (three to five years) of the Restenosis Instent: Balloon Angioplasty Versus Elective Stenting (RIBS) randomized study, 756
Angiotensin II receptor
Black pearl in the LIFE study: angiotensin-II receptor blockade on atrial fibrillation for future personalized medicine (letter), 1585
Angiotensin receptor blockers
Angiotensin-converting enzyme inhibitors or angiotensin receptor blockers for prevention of type 2 diabetes, 821
Angiotensin-converting enzyme inhibitors
Angiotensin-converting enzyme inhibitors or angiotensin receptor blockers for prevention of type 2 diabetes, 821
Beta-blocker treatment before angiotensin-converting enzyme inhibitor therapy in newly diagnosed heart failure (letter), 182
Cardiac medical therapy following coronary artery bypass graft surgery (letter), 934
Cardiac medical therapy post-coronary bypass grafting (letter), 933
Impact of carvedilol before angiotensin-converting enzyme inhibitor therapy on cardiac function (letter), 181
Animal models
Age-associated aortic stenosis in apolipoprotein E-deficient mice, 134
Aspirin, but not clopidogrel, reduces collateral conductance in a rabbit model of femoral artery occlusion, 994
Direct-access valve replacement, 366
Diuretics and bone loss in rats with aldosteronism, 142
Erythropoietin induces neovascularization and improves cardiac function in rats with heart failure after myocardial infarction, 125
Functional and morphologic imaging of coronary atherosclerosis in living mice using high-resolution color Doppler echocardiography and ultrasound biomicroscopy, 720
Human adult bone marrow mesenchymal stem cells repair experimental conduction block in rat cardiomyocyte cultures, 1943
Hypoxia inducible factor 1-à reduces infarction and attenuates progression of cardiac dysfunction after myocardial infarction in the mouse, 2116
Thickening of the infarcted wall by collagen injection improves left ventricular function in rats, 714
Ankle-brachial index
Subclinical peripheral arterial disease and incompressible ankle arteries are both long-term prognostic factors in patients undergoing coronary artery bypass grafting, 815
Anticoagulation
Hospitalized patients with atrial fibrillation and a high risk of stroke are not being provided with adequate anticoagulation, 1729
Antihypertensive drugs
Aspirin: a novel antihypertensive drug? (editorial), 984
Antiplatelet therapy
Long-term cost effectiveness of early and sustained dual oral antiplatelet therapy with clopidogrel given for up to one year after percutaneous coronary intervention, 761
Secondary stroke prevention with antiplatelet therapy with emphasis on the cardiac patient, 752
Triple versus dual antiplatelet therapy after coronary stenting, 1833
Aortic arch obstruction
Long-term results after primary one-stage repair of transposition of the great arteries and aortic arch obstruction, 1331
Aortic dissection
Acute aortic dissection presenting with congestive heart failure: results from the International Registry of Acute Aortic Dissection (correspondence), 733
Aortic stenosis
Age-associated aortic stenosis in apolipoprotein E-deficient mice, 134
Reduced systemic arterial compliance impacts significantly on left ventricular afterload and function in aortic stenosis, 291
Severe calcific aortic stenosis (editorial), 299
Aortic valve replacement
Direct-access valve replacement, 366
Apical ballooning
Cardiac autonomic activity in patients with transient left ventricular apical ballooning (correspondence), 1959
Apolipoprotein E
Age-associated aortic stenosis in apolipoprotein E-deficient mice, 134
Apoptosis
Downregulated expression of plasminogen activator inhibitor-1 augments myocardial neovascularization and reduces cardiomyocyte apoptosis after acute myocardial infarction, 536
Appropriateness Criteria
Appropriateness criteria: breaking new ground, 2143
Arachidonic acid
Overestimation of platelet aspirin resistance detection by thrombelastograph platelet mapping and validation by conventional aggregometry using arachidonic acid stimulation, 1705
Arg389Gly α-adrenoceptor polymorphism
Arg389Gly α-adrenoceptor polymorphism and catecholamine effects on plasma-renin-activity, 2111
Arginine vasopressin
Vasopressin antagonism in heart failure, 1785
Arrhythmias
See also specific arrhythmia
Association of myocardial ischemia with mortality and implanted cardioverter-defibrillator therapy in patients with coronary artery disease at risk of arrhythmic death, 1721
Impact of upgrade to cardiac resynchronization therapy on ventricular arrhythmia frequency in patients with implantable cardioverter defibrillators, 2258
Arrhythmogenic right ventricular cardiomyopathy
Echocardiographic findings in patients with arrhythmogenic/right ventricular cardiomyopathy/dysplasia (letter), 1962
Arterial embolism
Monitored atrial fibrillation duration predicts arterial embolic events in patients suffering from bradycardia and atrial fibrillation implanted with antitachycardia pacemakers, 1913
Arterial switch operation
Abnormal vasomotor function of the epicardial coronary arteries in children five to eight years after arterial switch operation, 1565
Long-term results after primary one-stage repair of transposition of the great arteries and aortic arch obstruction, 1331
Arteriogenesis
Angiogenesis, arteriogenesis, and diabetes (editorial), 835
Aspirin, but not clopidogrel, reduces collateral conductance in a rabbit model of femoral artery occlusion, 994
Arteriosclerosis
Effects of fluvastatin on the carotid arterial media as assessed by integrated backscatter ultrasound as compared to pulse wave velocity, 2031
Aspirin
Aspirin: a novel antihypertensive drug? (editorial), 984
Aspirin, but not clopidogrel, reduces collateral conductance in a rabbit model of femoral artery occlusion, 994

Aspirin administered at bedtime, but not on awakening, has an effect on ambulatory blood pressure in hypertensive patients, 975
Aspirin resistance and atherothrombotic disease, 986
Aspirin use in chronic heart failure, 963
Aspirin use in older patients with heart failure and coronary artery disease, 955
Effect of losartan versus atenolol on cardiovascular morbidity and mortality in patients with hypertension taking aspirin, 770
Platelet response to low-dose enteric-coated aspirin in patients with stable cardiovascular disease, 1258
Prior aspirin use and outcomes in elderly patients hospitalized with acute myocardial infarction, 967
Secondary stroke prevention with antiplatelet therapy with emphasis on the cardiac patient, 752
Triple versus dual antiplatelet therapy after coronary stenting, 1833

Aspirin resistance
On defining aspirin resistance (editorial), 1710
Overestimation of platelet aspirin resistance detection by thrombelastograph platelet mapping and validation by conventional aggregometry using arachidonic acid stimulation, 1705

Asymmetric dimethylarginine
ADMAring endothelial progenitor cells (editorial), 1702
Asymmetric dimethylarginine, L-arginine, and endothelial dysfunction in essential hypertension, 518
Suppression of endothelial progenitor cells in human coronary artery disease y the endogenous nitric oxide synthase inhibitor asymmetric dimethylarginine, 1693

Atenolol
Effect of losartan versus atenolol on cardiovascular morbidity and mortality in patients with hypertension taking aspirin, 770

Atheroma
Stabilization of carotid atheroma assessed by quantitative ultrasound analysis in non-hypercholesterolemic patients with coronary artery disease, 2022
In vivo intravascular ultrasound-derived thin-cap fibroatheroma detection using ultrasound radio frequency data analysis, 2038

Atherosclerosis
Effects of aggressive versus conventional lipid-lowering therapy by simvastatin on human atherosclerotic lesions, 106
Evolving concepts of dyslipidemia, atherosclerosis, and cardiovascular disease, 1219
Functional and morphologic imaging of coronary atherosclerosis in living mice using high-resolution color Doppler echocardiography and ultrasound biomicroscopy, 720
High-density lipoprotein function, 1792
Increased subclinical atherosclerosis in young adults with metabolic syndrome, 457
Pleiotropic effects of statins: benefit beyond cholesterol reduction?, 1855
Quantification of obstructive and nonobstructive coronary lesions by 64-slice computed tomography, 147
Relationship between blood pressure and C-reactive protein in the Multi-Ethnic Study of Atherosclerosis (MESA), 1869
Subclinical coronary artery atherosclerosis in patients with erectile dysfunction, 1503

Atherosclerotic cardiovascular disease events
Changing face of cardiovascular risk (editorial), 173
Coronary calcification, coronary disease risk factors, C-reactive protein, and atherosclerotic cardiovascular disease events, 158

Atherosclerotic plaque
Atherothrombosis and high-risk plaque, 937, 1209
Detection of high-risk young adults and women by coronary calcium and National Cholesterol Education Program Panel III guidelines, 1931
Local release of C-reactive protein from vulnerable plaque or coronary arterial wall injured by stenting, 237
Longitudinal structural determinants of atherosclerotic plaque vulnerability, 1507
Site of plaque rupture in native coronary arteries, 261

Atherothrombosis
Aspirin resistance and atherothrombotic disease, 986
Atherothrombosis and high-risk plaque, 937, 1209

Athletes
Evidence for decreasing occurrence of sudden cardiac death associated with the marathon (correspondence), 1373
Prevalence and clinical significance of left atrial remodeling in competitive athletes, 690
Walking and sports participation and mortality from coronary heart disease and stroke, 1761

Atorvastatin
Early and late benefits of high-dose atorvastatin in patients with acute coronary syndromes, 1405
Treatment of asymptomatic adults with elevated coronary calcium scores with atorvastatin, vitamin C, and vitamin E, 166

Atrial fibrillation
Acute pyloric spasm and gastric hypomotility, 327
Black pearl in the LIFE study: angiotensin-II receptor blockade on atrial fibrillation for future personalized medicine (letter), 1585
Catheter ablation of atypical atrial flutter and atrial tachycardia within the coronary sinus after left atrial ablation for atrial fibrillation, 83
Does rhythm control improve functional status in patients with atrial fibrillation? (editorial), 1900
Functional status in rate- versus rhythm-control strategies for atrial fibrillation, 1891
Gender-related differences in atrial fibrillation (editorial), 1307
Gender-related differences in rhythm control treatment in persistent atrial fibrillation, 1298
High sensitivity C-reactive protein, 1284
Hospitalized patients with atrial fibrillation and a high risk of stroke are not being provided with adequate anticoagulation, 1729
Impact of atrial fibrillation on the diagnostic performance of B-type natriuretic peptide concentration in dyspneic patients, 838
Monitored atrial fibrillation duration predicts arterial embolic events in patients suffering from bradycardia and atrial fibrillation implanted with antitachycardia pacemakers, 1913
Movement of the esophagus during left atrial catheter ablation for atrial fibrillation, 2107
Percutaneous left atrial appendage transcatheter occlusion (PLAATO system) to prevent stroke in high-risk patients with rheumatic atrial fibrillation, 9
Predictors of non-pulmonary vein ectopic beats initiating paroxysmal atrial fibrillation, 1054
Pulmonary vein isolation as an end point for left atrial circumferential ablation of atrial fibrillation, 1060
Separating atrial flutter from atrial fibrillation with apparent ECG organization using dominant and narrow F-wave spectra, 2079
Single-step atrial thrombus exclusion and internal cardioversion of atrial fibrillation via a transesophageal echocardiography probe, 560
Trigger activity more than three years after left atrial linear ablation without pulmonary vein isolation in patients with atrial fibrillation, 338

Atrial flutter
Catheter ablation of atypical atrial flutter and atrial tachycardia within the coronary sinus after left atrial ablation for atrial fibrillation, 83
New electrocardiographic algorithm to differentiate upper loop re-entry from reverse typical atrial flutter, 524
Separating atrial flutter from atrial fibrillation with apparent ECG organization using dominant and narrow F-wave spectra, 2079

Atrial premature complexes
Physiological mechanisms of atrially induced heart rate turbulence (letter), 1113

Atrial septal aneurysm
Patent foramen ovale: current pathology, pathophysiology, and clinical status, 1768

Atrial septal defects
Adult with congenital heart disease, 1
Patent foramen ovale/atrial septal defect closure and migraine: searching the rationale for the procedure (letter), 737

Atrial tachycardia
Atrial tachycardia arising from the coronary sinus musculature, 1921
Catheter ablation of atypical atrial flutter and atrial tachycardia within the coronary sinus after left atrial ablation for atrial fibrillation, 83
Characterization of focal atrial tachycardia using high-density mapping, 2088

Atrial thrombus
Single-step atrial thrombus exclusion and internal cardioversion of atrial fibrillation via a transesophageal echocardiography probe, 560

Atrioventricular implanted cardioverter-defibrillators
Cost advantage of dual-chamber versus single-chamber cardioverter-defibrillator implantation, 850

Atrioventricular valve
Steps toward the percutaneous replacement of atrioventricular valves, 360

Augmentation index
Normal vascular aging: differential effects on wave reflection and aortic pulse wave velocity, 1753

Balloon ablation
Efficacy and safety of circumferential pulmonary vein isolation using a novel cryothermal balloon ablation system, 1902

Balloon angioplasty
Evaluation of the safety and effectiveness of renal artery stenting after unsuccessful balloon angioplasty, 776
Long-term results (three to five years) of the Restenosis Instent: Balloon Angioplasty Versus Elective Stenting (RIBS) randomized study, 756

Baroreflex sensitivity
Applicability and clinical relevance of the transfer function method in the assessment of baroreflex sensitivity in heart failure patients, 1314

JACC Vol. 46, No. 12, 2005
December 20, 2005:2367–88

Inhibition of cortisol production with metyrapone prevents mental stress-induced endothelial dysfunction and baroreflex impairment, 344

Beta$_3$-adrenoceptors
Characterization of beta$_3$-adrenoceptors in human internal mammary artery and putative involvement in coronary artery bypass management, 351

Beta-adrenergic stimulation
Hyperdynamic myocardial response to beta-adrenergic stimulation in patients with chest pain and normal coronary arteries, 1270

Beta-blockers
Beta-blocker treatment before angiotensin-converting enzyme inhibitor therapy in newly diagnosed heart failure (letter), 182

Bi-atrial pacing
Acute hemodynamic benefits of bi-atrial atrioventricular sequential pacing with the optimal atrioventricular delay, 320

Bifurcation coronary lesions
Bifurcation coronary lesions treated with the "crush" technique, 599
Bifurcation intervention (editorial), 621
Clinical and angiographic outcome after implantation of drug-eluting stents in bifurcation lesions with the crush stent technique, 613
Nine-month outcome of patients treated by percutaneous coronary interventions for bifurcation lesions in the recent era, 606

Bifurcation lesions
Contemporary stent treatment of coronary bifurcations, 1446

Biventricular pacing
Cardiac resynchronization with sequential biventricular pacing for the treatment of moderate to severe heart failure, 2298
Hemodynamic effect of intrinsic conduction during left ventricular pacing as compared to biventricular pacing, 2305
Impact of conventional versus biventricular pacing on hemodynamics and tissue Doppler imaging indices of resynchronization in post-operative children with congenital heart disease, 2284
Potential proarrhythmic effects of biventricular pacing, 2340

Blood pressure
See also Ambulatory blood pressure
Home blood pressure measurement, 743
Relationship between blood pressure and C-reactive protein in the Multi-Ethnic Study of Atherosclerosis (MESA), 1869

Blood transfusions
Implications of blood transfusions for patients with non–ST-segment elevation acute coronary syndromes, 1490

Bone loss
Diuretics and bone loss in rats with aldosteronism, 142

Bone marrow cell transplantation
Bone marrow cell-mediated cardiac regeneration (editorial), 1659
Regeneration of human infarcted heart muscle by intracoronary autologous bone marrow cell transplantation in chronic coronary artery disease, 1651

Bone marrow mesenchymal stem cells
Human adult bone marrow mesenchymal stem cells repair experimental conduction block in rat cardiomyocyte cultures, 1943

Bosentan
Effects of long-term bosentan in children with pulmonary arterial hypertension, 697

Brachial artery
Endothelial vasomotor dysfunction in the brachial artery is associated with late in-stent coronary restenosis, 648
Prognostic value of brachial artery endothelial function and wall thickness, 1006

Bradyarrhythmias
High-risk for bradyarrhythmic complications in patients with Brugada syndrome caused by *SCN5A* gene mutations, 2100

Bradycardia
Monitored atrial fibrillation duration predicts arterial embolic events in patients suffering from bradycardia and atrial fibrillation implanted with antitachycardia pacemakers, 1913

Brugada syndrome
Developmental aspects of long QT syndrome type 3 and Brugada syndrome on the basis of a single *SCN5A* mutation in childhood, 331
High-risk for bradyarrhythmic complications in patients with Brugada syndrome caused by *SCN5A* gene mutations, 2100

B-type natriuretic peptide
Flow-mediated vasodilation predicts outcome in patients with chronic heart failure, 1011
Impact of atrial fibrillation on the diagnostic performance of B-type natriuretic peptide concentration in dyspneic patients, 838

Calcific aortic stenosis
Severe calcific aortic stenosis (editorial), 299

Cardiac amyloidosis
Noninvasive etiologic diagnosis of cardiac amyloidosis using ^{99m}Tc-3,3-diphosphono-1,2-propanodicarboxylic acid scintigraphy, 1076

Cardiac arrest
Coagulopathy after successful cardiopulmonary resuscitation following cardiac arrest, 21
High-volume hemofiltration after out-of-hospital cardiac arrest, 432

Cardiac catheterization
New anatomic score for prognosis after cardiac catheterization in patients with previous bypass surgery, 1684
Task Force 3: training guidelines for pediatric cardiac catheterization and interventional cardiology, 1388

Cardiac dysfunction
Hypoxia inducible factor 1-α reduces infarction and attenuates progression of cardiac dysfunction after myocardial infarction in the mouse, 2116

Cardiac function
Impact of carvedilol before angiotensin-converting enzyme inhibitor therapy on cardiac function (letter), 181

Cardiac output
Noninvasive measurement of cardiac output during exercise by inert gas rebreathing technique: a new tool for heart failure evaluation (correspondence), 1779

Cardiac resynchronization therapy
Cardiac resynchronization devices: FDA's regulatory considerations, 2325
Cardiac resynchronization therapy improves heart rate profile and heart rate variability of patients with moderate to severe heart failure, 1875
Cardiac resynchronization therapy PART 1—issues before device implantation, 2153
Cardiac resynchronization therapy PART 2—issues during and after device implantation and unresolved questions, 2168
Cardiac resynchronization with sequential biventricular pacing for the treatment of moderate to severe heart failure, 2298
Coronary venous anatomy, 68
Cost-effectiveness of cardiac resynchronization therapy, 2322
Cost-effectiveness of cardiac resynchronization therapy in the Comparison of Medical Therapy, Pacing, and Defibrillation in Heart Failure (COMPANION) trial, 2311
Diastolic asynchrony is more frequent than systolic asynchrony in dilated cardiomyopathy and is less improved by cardiac resynchronization therapy, 2250
Electrical conduction disturbance effects on dynamic changes of functional mitral regurgitation, 2270
Electrical signals applied during the absolute refractory period: an investigational treatment for advanced heart failure in patients with normal QRS duration, 2229

Education
President's page: education: drudgery or excitement? You choose, 558

Elderly
See also Aging
Aspirin use in older patients with heart failure and coronary artery disease, 955
Evolution in cardiovascular care for elderly patients with non–ST-segment elevation acute coronary syndromes, 1479
Prior aspirin use and outcomes in elderly patients hospitalized with acute myocardial infarction, 967

Electrocardiography
Combined use of ibutilide as an active control with intensive electrocardiographic sampling and signal averaging as a sensitive method to assess the effects of tadalafil on the human QT interval, 678
Electrocardiographic predictors of cardiovascular outcome in women, 51
Making a silk purse out of a sow's ear (editorial), 688
Myocardial contrast echocardiography versus Thrombolysis in Myocardial Infarction score in patients presenting to the emergency department with chest pain and a nondiagnostic electrocardiogram, 920
New electrocardiographic algorithm to differentiate upper loop re-entry from reverse typical atrial flutter, 524

Electrograms
Electrogram characteristics in postinfarction ventricular tachycardia, 667
"The older the broader" (editorial), 675

Electrophysiology
Task Force 4: recommendations for training guidelines in pediatric cardiac electrophysiology, 1391

Embolic protection devices
Slow-flow phenomenon during carotid artery intervention with embolic protection devices, 1466

Embolism
Monitored atrial fibrillation duration predicts arterial embolic events in patients suffering from bradycardia and atrial fibrillation implanted with antitachycardia pacemakers, 1913

Emergency coronary artery bypass surgery
Emergency coronary artery bypass surgery for percutaneous coronary interventions: changes in the incidence, clinical characteristics, and indications from 1989 to 2003, 2004
Reducing the risk of emergency bypass surgery for failed percutaneous coronary interventions, 2010

Emergency department
Ischemic versus nonischemic chest pain in the emergency room (editorial), 928
Myocardial contrast echocardiography versus Thrombolysis in Myocardial Infarction score in patients presenting to the emergency department with chest pain and a nondiagnostic electrocardiogram, 920

Emergency revascularization
Functional status and quality of life after emergency revascularization for cardiogenic shock complicating acute myocardial infarction, 266

End-diastolic tail velocity
Doppler echocardiographic profile and indexes in the evaluation of aortic coarctation in patients before and after stenting, 1045

Endothelial dysfunction
Acute consumption of flavanol-rich cocoa and the reversal of endothelial dysfunction in smokers, 1276
Asymmetric dimethylarginine, L-arginine, and endothelial dysfunction in essential hypertension, 518
Endothelial dysfunction after sirolimus-eluting stent placement (editorial), 236
Endothelial vasomotor dysfunction in the brachial artery is associated with late in-stent coronary restenosis, 648
Inhibition of cortisol production with metyrapone prevents mental stress-induced endothelial dysfunction and baroreflex impairment, 344

Endothelial function
Impaired endothelial function in coronary heart disease patients with depressive symptomatology, 656
Prognostic value of brachial artery endothelial function and wall thickness, 1006

Endothelial nitric oxide synthase
Genetic polymorphism on endothelial nitric oxide synthase affects endothelial activation and inflammatory response during the acute phase of myocardial infarction, 1101

Endothelial progenitor cells
ADMAring endothelial progenitor cells (editorial), 1702
Suppression of endothelial progenitor cells in human coronary artery disease y the endogenous nitric oxide synthase inhibitor asymmetric dimethylarginine, 1693

Endothelium
Genetic polymorphism on endothelial nitric oxide synthase affects endothelial activation and inflammatory response during the acute phase of myocardial infarction, 1101
Remote ischemic preconditioning provides early and late protection against endothelial ischemia-reperfusion injury in humans, 450

Enteric-coated aspirin
Platelet response to low-dose enteric-coated aspirin in patients with stable cardiovascular disease, 1258

Epicardial coronary arteries
Abnormal vasomotor function of the epicardial coronary arteries in children five to eight years after arterial switch operation, 1565

Epidemiology
Year in epidemiology, health services, and outcome research, 1362

Eplerenone
Eplerenone reduces mortality 30 days after randomization following acute myocardial infarction in patients with left ventricular systolic dysfunction and heart failure, 425

ERACI II trial
Five-year follow-up of the argentine randomized trial of coronary angioplasty with stenting versus coronary bypass surgery in patients with multiple vessel disease (ERACI II), 582

Erectile dysfunction
Combined use of ibutilide as an active control with intensive electrocardiographic sampling and signal averaging as a sensitive method to assess the effects of tadalafil on the human QT interval, 678
Subclinical coronary artery atherosclerosis in patients with erectile dysfunction, 1503

Erythropoietin
Erythropoietin induces neovascularization and improves cardiac function in rats with heart failure after myocardial infarction, 125

Esophagus
Movement of the esophagus during left atrial catheter ablation for atrial fibrillation, 2107

Essential hypertension
Asymmetric dimethylarginine, L-arginine, and endothelial dysfunction in essential hypertension, 518

Evidence-based medical therapy
Application of evidence-based medical therapy is associated with improved outcomes after percutaneous coronary intervention and is a valid quality indicator, 1473

Exercise
Incremental benefit of rate-adaptive pacing on exercise performance during cardiac resynchronization therapy, 2292
Noninvasive measurement of cardiac output during exercise by inert gas rebreathing technique: a new tool for heart failure evaluation (correspondence), 1779

Exercise testing
Cardiopulmonary exercise testing in the clinical and prognostic assessment of diastolic heart failure, 1883

F waves
Separating atrial flutter from atrial fibrillation with apparent ECG organization using dominant and narrow F-wave spectra, 2079

F18-fluorodeoxyglucose positron emission tomography
Extent of perfusion–F18-fluorodeoxyglucose positron emission tomography mismatch determines mortality in medically treated patients with chronic ischemic left ventricular dysfunction, 1264

Factor VII
Plasma tissue factor plus activated peripheral mononuclear cells activate factors VII and X in cardiac surgical wounds, 707

Factor X
Plasma tissue factor plus activated peripheral mononuclear cells activate factors VII and X in cardiac surgical wounds, 707

Fas
Myocardial expression of Fas and recovery of left ventricular function in patients with recent-onset cardiomyopathy, 1036
Fasudil
Efficacy and safety of fasudil in patients with stable angina, 1803
Fellowships
Training guidelines for pediatric cardiology fellowship programs, 1380
Variations in adult congenital heart disease training in adult and pediatric cardiology fellowship programs, 893
Femoral artery occlusion
Aspirin, but not clopidogrel, reduces collateral conductance in a rabbit model of femoral artery occlusion, 994
Femoropopliteal stenting
Impact of stent fractures following femoropopliteal stenting (letter), 1961
Fibrin
Platelet reactivity in patients and recurrent events post-stenting, 1820
Fibrin-specific intracoronary lytic infusion
Intracoronary fibrin-specific thrombolytic infusion facilitates percutaneous recanalization of chronic total occlusion, 793
Fibroatheroma
In vivo intravascular ultrasound-derived thin-cap fibroatheroma detection using ultrasound radio frequency data analysis, 2038
Finite element analysis
Longitudinal structural determinants of atherosclerotic plaque vulnerability, 1507
Fish consumption
Fish consumption among healthy adults is associated with decreased levels of inflammatory markers related to cardiovascular disease, 120
Flavanols
Acute consumption of flavanol-rich cocoa and the reversal of endothelial dysfunction in smokers, 1276
Flow-mediated vasodilation
Flow-mediated vasodilation predicts outcome in patients with chronic heart failure, 1011
Prognostic value of brachial artery endothelial function and wall thickness, 1006
Fluoroscopically guided cardiac resynchronization therapy
Fluoroscopically guided implantation of modern cardiac resynchronization devices: radiation burden to the patient and associated risks, 2335
Fluvastatin
Effects of fluvastatin on the carotid arterial media as assessed by integrated backscatter ultrasound as compared to pulse wave velocity, 2031
Focal atrial tachycardia
Characterization of focal atrial tachycardia using high-density mapping, 2088
Fontan procedure
Acute hemodynamic effects of pacing in patients with Fontan physiology, 1937
Cardiac transplant following failed Fontan or Glenn procedures (letter), 1374
Food and Drug Administration
Cardiac resynchronization devices: FDA's regulatory considerations, 2325
Founder frameshift deletion mutation
Lifelong left ventricular remodeling of hypertrophic cardiomyopathy caused by a founder frameshift deletion mutation in the cardiac myosin-binding protein C gene among Japanese, 1737
Fractional flow reserve
Long-term clinical outcome after fractional flow reserve-guided percutaneous coronary intervention in patients with multivessel disease, 438
Physiologic assessment of jailed side branch lesions using fractional flow reserve, 633
FRONTIER stent registry
FRONTIER stent registry, 592
Furosemide
Diuretics and bone loss in rats with aldosteronism, 142
Gastric hypomotility
Acute pyloric spasm and gastric hypomotility, 327
Gender
Differences in the management and prognosis of women and men who suffer from acute coronary syndromes, 1845
Gender, race, and cardiac care (editorial), 1852
Gender-related differences in atrial fibrillation (editorial), 1307
Gender-related differences in rhythm control treatment in persistent atrial fibrillation, 1298
Gender-related differences in the clinical presentation and outcome of hypertrophic cardiomyopathy, 480
Race and gender differences in C-reactive protein levels, 464
Relationship between blood pressure and C-reactive protein in the Multi-Ethnic Study of Atherosclerosis (MESA), 1869
Gene expression
Myocardial expression of Fas and recovery of left ventricular function in patients with recent-onset cardiomyopathy, 1036
Genetic testing
Genetic testing in clinics for congenital heart disease in adults (letter), 1114
Genomics
Are longitudinal, natural history studies the next step in genotype-phenotype translational genomics in hypertrophic cardiomyopathy? (editorial), 1744
Genomic basis of myocardial infarction, 1456
New paradigms in cardiovascular medicine, 1965
Prospects for personalized cardiovascular medicine, 1615
Glenn procedure
Cardiac transplant following failed Fontan or Glenn procedures (letter), 1374
Glucose
Effects of plasma insulin and glucose on myocardial blood flow in patients with type 1 diabetes mellitus, 42
Glucose for the heart (editorial), 49
U-shaped relationship of blood glucose with adverse outcomes among patients with ST-segment elevation myocardial infarction (correspondence), 178
Granulocyte colony-stimulating factor
Granulocyte colony-stimulating factor and granulocyte-macrophage colony-stimulating factor (editorial), 1649
Granulocyte colony-stimulating factor and stem cell factor improve contractile reserve of the infarcted left ventricle independent of restoring muscle mass, 1662
Outcomes and risks of granulocyte colony-stimulating factor in patients with coronary artery disease, 1643
Granulocyte-macrophage colony-stimulating factor
Granulocyte colony-stimulating factor and granulocyte-macrophage colony-stimulating factor (editorial), 1649
Safety and efficacy of subcutaneous-only granulocyte-macrophage colony-stimulating factor for collateral growth promotion in patients with coronary artery disease, 1636
Headaches
Patent foramen ovale: current pathology, pathophysiology, and clinical status, 1768
Heart failure
ACC/AHA 2005 Guideline Update for the Diagnosis and Management of Chronic Heart Failure in the Adult, 1116
ACC/AHA 2005 Heart Failure Clinical Data Standards, 1179
Acute aortic dissection presenting with congestive heart failure: results from the International Registry of Acute Aortic Dissection (correspondence), 733
Acute decompensated heart failure (editorial), 65
Adequacy of laboratory monitoring in patients treated with spironolactone for congestive heart failure, 845
Applicability and clinical relevance of the transfer function method in the assessment of baroreflex sensitivity in heart failure patients, 1314
Aspirin use in chronic heart failure, 963
Aspirin use in older patients with heart failure and coronary artery disease, 955
Beta-blocker treatment before angiotensin-converting enzyme inhibitor therapy in newly diagnosed heart failure (letter), 182
Bridging the resource gap in heart failure expertise and management: the underacknowledged role of nurse specialists (letter), 1961
Can perindopril delay the onset of heart failure in Duchenne muscular dystrophy? (letter), 1781
Cardiac resynchronization therapy improves heart rate profile and heart rate variability of patients with moderate to severe heart failure, 1875
Cardiac resynchronization therapy PART 1—issues before device implantation, 2153
Cardiac resynchronization therapy PART 2—issues during and after device implantation and unresolved questions, 2168
Cardiac resynchronization with sequential bi-ventricular pacing for the treatment of moderate to severe heart failure, 2298
Cardiopulmonary exercise testing in the clinical and prognostic assessment of diastolic heart failure, 1883
Cost-effectiveness of cardiac resynchronization therapy in the Comparison of Medical Therapy, Pacing, and Defibrillation in Heart Failure (COMPANION) trial, 2311
Diabetes lowers aerobic capacity in heart failure (correspondence), 930
Early ultrafiltration in patients with decompensated heart failure and diuretic resistance, 2047
Economic effect of a tertiary hospital-based heart failure program, 660
Electrical signals applied during the absolute refractory period: an investigational treatment for advanced heart failure in patients with normal QRS duration, 2229
Eplerenone reduces mortality 30 days after randomization following acute myocardial infarction in patients with left ventricular systolic dysfunction and heart failure, 425
Erythropoietin induces neovascularization and improves cardiac function in rats with heart failure after myocardial infarction, 125

Flow-mediated vasodilation predicts outcome in patients with chronic heart failure, 1011
Follow-up of robotically-assisted left ventricular epicardial leads for cardiac resynchronization therapy, 2359
Impact of atrial fibrillation on the diagnostic performance of B-type natriuretic peptide concentration in dyspneic patients, 838
Impaired insulin sensitivity as an independent risk factor for mortality in patients with stable chronic heart failure, 1019
In-hospital mortality in patients with acute decompensated heart failure requiring intravenous vasoactive medications, 57
Management of heart failure after cardiac resynchronization therapy: integrating advanced heart failure treatment with optimal device function, 2193
Mechanical dyssynchrony assessed by Doppler tissue imaging is a powerful predictor of mortality in congestive heart failure with normal QRS duration, 2237
Mode of death in advanced heart failure—the COMPANION trial, 2329
More risk factors affecting heart failure outcomes! (editorial), 1027
Noninvasive measurement of cardiac output during exercise by inert gas rebreathing technique: a new tool for heart failure evaluation (correspondence), 1779
Novel metabolic risk factors for heart failure, 2054
Plasma levels of tumor necrosis factor receptor type I during the acute phase following complicated myocardial infarction predicts survival in high risk patients, 2018
Potential proarrhythmic effects of biventricular pacing, 2340
Relationship of serum digoxin concentration to mortality and morbidity in women in the Digitalis Interventional Group Trial, 497
Significance of QRS complex duration in patients with heart failure, 2183
There is plenty of room for CRT devices without back-up defibrillator in the electrical treatment of heart failure, 2204
Ultrafiltration: a new approach toward mechanical diuresis in heart failure, 2052
Ultrafiltration versus usual care for hospitalized patients with heart failure: Relief for Acutely Fluid Overload Patients With Decompensated Heart Failure, 2043
Vasopressin antagonism in heart failure, 1785
Whither withering's legacy (editorial), 505

Heart rate
Cardiac resynchronization therapy improves heart rate profile and heart rate variability of patients with moderate to severe heart failure, 1875

Heart rate turbulence
Physiological mechanisms of atrially induced heart rate turbulence (letter), 1113

Heart rate variability
Cardiac resynchronization therapy improves heart rate profile and heart rate variability of patients with moderate to severe heart failure, 1875

Heme oxygenase-1 vector
Improved graft mesenchymal stem cell survival in ischemic heart with a hypoxia-regulated heme oxygenase-1 vector, 1339

Hemiblock
Prognostic significance of left anterior hemiblock in patients with suspected coronary artery disease, 858

Hemodynamics
Acute hemodynamic benefits of bi-atrial atrioventricular sequential pacing with the optimal atrioventricular delay, 320
Acute hemodynamic effects of pacing in patients with Fontan physiology, 1937
Hemodynamic effect of intrinsic conduction during left ventricular pacing as compared to biventricular pacing, 2305
Impact of conventional versus biventricular pacing on hemodynamics and tissue Doppler imaging indices of resynchronization in post-operative children with congenital heart disease, 2284

Hemofiltration
High-volume hemofiltration after out-of-hospital cardiac arrest, 432

Heparin
Effects of clopidogrel on the rebound hypercoagulable state after heparin discontinuation in patients with acute coronary syndromes (correspondence), 1582

High right atrial pacing
Acute hemodynamic benefits of bi-atrial atrioventricular sequential pacing with the optimal atrioventricular delay, 320

High-density electrode mapping
Characterization of focal atrial tachycardia using high-density mapping, 2088

High-density lipoprotein
High-density lipoprotein function, 1792

High-energy phosphates
Cross-sectional assessment of the effect of kidney and kidney-pancreas transplantation on resting left ventricular energy metabolism in type 1 diabetic-uremic patients, 1085

Home blood pressure measurement
Home blood pressure measurement, 743

Hospitals
Economic effect of a tertiary hospital-based heart failure program, 660
In-hospital mortality in patients with acute decompensated heart failure requiring intravenous vasoactive medications, 57

Hypercholesterolemia
Phenolic content of virgin olive oil improves ischemic reactive hyperemia in hypercholesterolemic patients, 1864
Stabilization of carotid atheroma assessed by quantitative ultrasound analysis in non-hypercholesterolemic patients with coronary artery disease, 2022

Hyperglycemia
Effects of plasma insulin and glucose on myocardial blood flow in patients with type 1 diabetes mellitus, 42

Hyperkalemia
Adequacy of laboratory monitoring in patients treated with spironolactone for congestive heart failure, 845

Hypertension
Aspirin administered at bedtime, but not on awakening, has an effect on ambulatory blood pressure in hypertensive patients, 975
Asymmetric dimethylarginine, L-arginine, and endothelial dysfunction in essential hypertension, 518
Effect of losartan versus atenolol on cardiovascular morbidity and mortality in patients with hypertension taking aspirin, 770
Masked hypertension and white-coat hypertension (editorial), 516
Prognosis of "masked" hypertension and "white-coat" hypertension detected by 24-h ambulatory blood pressure monitoring, 508

Hypertrophic cardiomyopathy
See also Cardiomyopathy
Are longitudinal, natural history studies the next step in genotype-phenotype translational genomics in hypertrophic cardiomyopathy? (editorial), 1744
Dilated-hypokinetic evolution of hypertrophic cardiomyopathy, 1543
Frequency of cardiac troponin I mutations in families with hypertrophic cardiomyopathy in China (letter), 180
Gender-related differences in the clinical presentation and outcome of hypertrophic cardiomyopathy, 480
Hypertrophic cardiomyopathy (editorial), 1551
Lifelong left ventricular remodeling of hypertrophic cardiomyopathy caused by a founder frameshift deletion mutation in the cardiac myosin-binding protein C gene among Japanese, 1737
Long-term effects of surgical septal myectomy on survival in patients with obstructive hypertrophic cardiomyopathy, 470
Prognostic impact of septal myectomy in obstructive hypertrophic cardiomyopathy (editorial), 477
Reversal of inappropriate peripheral vascular responses in hypertrophic cardiomyopathy, 883
Standard mutation nomenclature in hypertrophic cardiomyopathy: an urgent need (letter), 380
Treatment of hypertrophic cardiomyopathy, point-counterpoint (letter), 2146

Hypothermia
High-volume hemofiltration after out-of-hospital cardiac arrest, 432

Hypoxia inducible factor 1-à
Hypoxia inducible factor 1-à reduces infarction and attenuates progression of cardiac dysfunction after myocardial infarction in the mouse, 2116

i2 Summit 2006
President's page: i2 Summit 2006: one-stop shopping for interventionalists, 1371

Ibutilide
Combined use of ibutilide as an active control with intensive electrocardiographic sampling and signal averaging as a sensitive method to assess the effects of tadalafil on the human QT interval, 678

Imaging
Impact of selective adenosine A_{2A} receptor agonists on cardiac imaging, 2076
President's page: reframing debate in patient care image, 176
Task Force 2: pediatric training guidelines for noninvasive cardiac imaging, 1384
Year in cardiac imaging, 542

Randomized, double-blind, placebo-controlled trial on restenosis prevention by the receptor tyrosine kinase inhibitor imatinib, 1999

^{123}I-metaiodobenzylguanidine
Cardiac sympathetic dysfunction correlates with abnormal myocardial contractile reserve in dilated cardiomyopathy patients, 2061

Implanted cardioverter-defibrillators
Association of myocardial ischemia with mortality and implanted cardioverter-defibrillator therapy in patients with coronary artery disease at risk of arrhythmic death, 1721
Cost advantage of dual-chamber versus single-chamber cardioverter-defibrillator implantation, 850
Experience counts (editorial), 1541

Factors influencing appropriate firing of the implanted defibrillator for ventricular tachycardia/fibrillation, 1712
Impact of upgrade to cardiac resynchronization therapy on ventricular arrhythmia frequency in patients with implantable cardioverter defibrillators, 2258
QRS duration does not predict occurrence of ventricular tachyarrhythmias in patients with implanted cardioverter-defibrillators, 310
Relation between patients' outcomes and the volume of cardioverter-defibrillator implantation procedures performed by physicians treating Medicare beneficiaries, 1536
There is plenty of room for CRT devices without back-up defibrillator in the electrical treatment of heart failure, 2204
Who needs a defibrillator? (editorial), 1727
Wide QRS, narrow QRS (editorial), 317

Incomplete stent apposition
Late incomplete stent apposition after sirolimus-eluting stent implantation, 1002

Inert gas rebreathing
Noninvasive measurement of cardiac output during exercise by inert gas rebreathing technique: a new tool for heart failure evaluation (correspondence), 1779

Inflammation
Associations between serum resistin levels and insulin resistance, inflammation, and coronary artery disease (correspondence), 379
Release of C-reactive protein in response to inflammatory cytokines by human adipocytes: linking obesity to vascular inflammation (correspondence), 1112

Inflammatory markers
Fish consumption among healthy adults is associated with decreased levels of inflammatory markers related to cardiovascular disease, 120
Inflammatory markers and metabolic syndrome: insights from therapeutic interventions, 1978

Information
Integrating the flow of information, 1110

In-stent restenosis
Diagnosis of coronary in-stent restenosis with multidetector row spiral computed tomography, 1573
Endothelial vasomotor dysfunction in the brachial artery is associated with late in-stent coronary restenosis, 648
Long-term results (three to five years) of the Restenosis Instent: Balloon Angioplasty Versus Elective Stenting (RIBS) randomized study, 756
Randomized, double-blind, placebo-controlled trial on restenosis prevention by the receptor tyrosine kinase inhibitor imatinib, 1999

Insulin
Effects of plasma insulin and glucose on myocardial blood flow in patients with type 1 diabetes mellitus, 42

Insulin resistance
Associations between serum resistin levels and insulin resistance, inflammation, and coronary artery disease (correspondence), 379

Insulin sensitivity
Impaired insulin sensitivity as an independent risk factor for mortality in patients with stable chronic heart failure, 1019

Integrated backscatter ultrasound
Effects of fluvastatin on the carotid arterial media as assessed by integrated backscatter ultrasound as compared to pulse wave velocity, 2031

Interleukin-6
Genetic polymorphism on endothelial nitric oxide synthase affects endothelial activation and inflammatory response during the acute phase of myocardial infarction, 1101

Internal mammary artery
Characterization of beta$_3$-adrenoceptors in human internal mammary artery and putative involvement in coronary artery bypass management, 351

Interventional cardiology
Blinded, randomized, placebo-controlled trial of percutaneous laser myocardial revascularization to improve angina symptoms in patients with severe coronary disease, 1812
Evaluation of the safety and effectiveness of renal artery stenting after unsuccessful balloon angioplasty, 776
Long-term clinical outcome after fractional flow reserve-guided percutaneous coronary intervention in patients with multivessel disease, 438
Relationship between operator volume and adverse outcome in contemporary percutaneous coronary intervention practice, 625
Slow-flow phenomenon during carotid artery intervention with embolic protection devices, 1466
Task Force 3: training guidelines for pediatric cardiac catheterization and interventional cardiology, 1388

Intima-media thickness
Increased subclinical atherosclerosis in young adults with metabolic syndrome, 457
Prognostic value of brachial artery endothelial function and wall thickness, 1006

Intravascular ultrasound
See also Ultrasound
Bifurcation coronary lesions treated with the "crush" technique, 599
Effectiveness of sirolimus-eluting stent implantation for the treatment of ostial left anterior descending artery stenosis with intravascular ultrasound guidance, 787
Evaluation of four-year coronary artery response after sirolimus-eluting stent implantation using serial quantitative intravascular ultrasound and computer-assisted grayscale value analysis for plaque composition in event-free patients, 1670
Intravascular ultrasound for the assessment of an ambiguous left main coronary stenosis (letter), 2145
Longitudinal structural determinants of atherosclerotic plaque vulnerability, 1507
Quantification of obstructive and nonobstructive coronary lesions by 64-slice computed tomography, 147
In vivo intravascular ultrasound-derived thin-cap fibroatheroma detection using ultrasound radio frequency data analysis, 2038

Ischemia
Duration of ischemia is a major determinant of transmurality and severe microvascular obstruction after primary angioplasty, 1229
Extent of perfusion–F18-fluorodeoxyglucose positron emission tomography mismatch determines mortality in medically treated patients with chronic ischemic left ventricular dysfunction, 1264
Improved graft mesenchymal stem cell survival in ischemic heart with a hypoxia-regulated heme oxygenase-1 vector, 1339
Peritransplant ischemic injury is associated with up-regulation of stromal cell-derived factor-1, 1029

Ischemia-reperfusion injury
Remote ischemic preconditioning provides early and late protection against endothelial ischemia-reperfusion injury in humans, 450

Ischemic cardiomyopathy
Effect of dobutamine stress on left ventricular filling in ischemic dilated cardiomyopathy, 488
Propagation of onset and peak time of myocardial shortening in ischemic vs. non-ischemic cardiomyopathy: assessment by MRI myocardial tagging, 2215

Ischemic chest pain
Patients with prolonged ischemic chest pain and presumed-new left bundle branch block have heterogeneous outcomes depending on the presence of ST-segment changes, 29

Ischemic heart disease
Mutation in *ABCA1* predicted risk of ischemic heart disease in the Copenhagen City Heart Study population, 1516

Ischemic mitral regurgitation
Papillary muscle dysfunction attenuates ischemic mitral regurgitation in patients with localized basal inferior left ventricular remodeling, 113

Ischemic reactive hyperemia
Phenolic content of virgin olive oil improves ischemic reactive hyperemia in hypercholesterolemic patients, 1864

Jailed side branch lesions
Physiologic assessment of jailed side branch lesions using fractional flow reserve, 633

Journals
Innovation, journal reviewers, and journal editors (editorial), 1360

Kidney transplantation
Cross-sectional assessment of the effect of kidney and kidney-pancreas transplantation on resting left ventricular energy metabolism in type 1 diabetic-uremic patients, 1085

Kidney-pancreas transplantation
Cross-sectional assessment of the effect of kidney and kidney-pancreas transplantation on resting left ventricular energy metabolism in type 1 diabetic-uremic patients, 1085

L-arginine
Asymmetric dimethylarginine, L-arginine, and endothelial dysfunction in essential hypertension, 518

Left anterior descending coronary artery
Effectiveness of sirolimus-eluting stent implantation for the treatment of ostial left anterior descending artery stenosis with intravascular ultrasound guidance, 787

Left anterior hemiblock
Prognostic significance of left anterior hemiblock in patients with suspected coronary artery disease, 858

Left atrial ablation
Catheter ablation of atypical atrial flutter and atrial tachycardia within the coronary sinus after left atrial ablation for atrial fibrillation, 83
Movement of the esophagus during left atrial catheter ablation for atrial fibrillation, 2107
Trigger activity more than three years after left atrial linear ablation without pulmonary vein isolation in patients with atrial fibrillation, 338

Left atrial appendage
Percutaneous left atrial appendage transcatheter occlusion (PLAATO system) to prevent stroke in high-risk patients with rheumatic atrial fibrillation, 9
Left atrial circumferential ablation
Pulmonary vein isolation as an end point for left atrial circumferential ablation of atrial fibrillation, 1060
Left atrial remodeling
Prevalence and clinical significance of left atrial remodeling in competitive athletes, 690
Left bundle branch block
Left bundle branch block in acute myocardial infarction (editorial), 39
Patients with prolonged ischemic chest pain and presumed-new left bundle branch block have heterogeneous outcomes depending on the presence of ST-segment changes, 29
Left main coronary stenosis
Intravascular ultrasound for the assessment of an ambiguous left main coronary stenosis (letter), 2145
Left ventricle
Global endocardial electrical restitution in human right and left ventricles determined by noncontact mapping, 1067
Granulocyte colony-stimulating factor and stem cell factor improve contractile reserve of the infarcted left ventricle independent of restoring muscle mass, 1662
Left ventricular afterload
Reduced systemic arterial compliance impacts significantly on left ventricular afterload and function in aortic stenosis, 291
Left ventricular apical ballooning
Cardiac autonomic activity in patients with transient left ventricular apical ballooning (correspondence), 1959
Left ventricular diastolic function
Improvements in left ventricular diastolic function after cardiac resynchronization therapy are coupled to response in systolic performance, 2244
Left ventricular dysfunction
Cross-sectional assessment of the effect of kidney and kidney-pancreas transplantation on resting left ventricular energy metabolism in type 1 diabetic-uremic patients, 1085
Extent of perfusion–F18-fluorodeoxyglucose positron emission tomography mismatch determines mortality in medically treated patients with chronic ischemic left ventricular dysfunction, 1264
Revascularization in severe left ventricular dysfunction, 567
Left ventricular dyssynchrony
Left ventricular dyssynchrony predicts right ventricular remodeling after cardiac resynchronization therapy, 2264
Left ventricular ejection fraction
Eplerenone reduces mortality 30 days after randomization following acute myocardial infarction in patients with left ventricular systolic dysfunction and heart failure, 425
RESTORE—from deduction to leap of faith (letter), 562
Left ventricular epicardial leads
Follow-up of robotically-assisted left ventricular epicardial leads for cardiac resynchronization therapy, 2359
Left ventricular filling
Effect of dobutamine stress on left ventricular filling in ischemic dilated cardiomyopathy, 488
Left ventricular function
Myocardial expression of Fas and recovery of left ventricular function in patients with recent-onset cardiomyopathy, 1036
Thickening of the infarcted wall by collagen injection improves left ventricular function in rats, 714
Left ventricular hypertrophy

Concomitant surgical myocardial revascularization is still the gold standard for combined valvular and coronary heart disease (letter), 1782
Myocardial shortening
Propagation of onset and peak time of myocardial shortening in ischemic vs. non-ischemic cardiomyopathy: assessment by MRI myocardial tagging, 2215
Myocardial stunning
Usefulness of a comprehensive cardiovascular magnetic resonance imaging assessment for predicting recovery of left ventricular wall motion in the setting of myocardial stunning, 1747
Myocarditis
Determinants of myocardial recovery in myocarditis (editorial), 1043
Myocardial expression of Fas and recovery of left ventricular function in patients with recent-onset cardiomyopathy, 1036
Myocardium
Increased vascular endothelial growth factor but impaired vascular endothelial growth factor receptor signaling in the myocardium of type 2 diabetic patients with chronic coronary heart disease, 827
Myosin-binding protein C gene
Lifelong left ventricular remodeling of hypertrophic cardiomyopathy caused by a founder frameshift deletion mutation in the cardiac myosin-binding protein C gene among Japanese, 1737
National Cholesterol Education Program Panel III
Detection of high-risk young adults and women by coronary calcium and National Cholesterol Education Program Panel III guidelines, 1931
Natriuretic peptides
Flow-mediated vasodilation predicts outcome in patients with chronic heart failure, 1011
Impact of atrial fibrillation on the diagnostic performance of B-type natriuretic peptide concentration in dyspneic patients, 838
In-hospital mortality in patients with acute decompensated heart failure requiring intravenous vasoactive medications, 57
Neointimal hyperplasia
Effect of variable dose and release kinetics on neointimal hyperplasia using a novel paclitaxel-eluting stent platform, 253
Neovascularization
Downregulated expression of plasminogen activator inhibitor-1 augments myocardial neovascularization and reduces cardiomyocyte apoptosis after acute myocardial infarction, 536
Erythropoietin induces neovascularization and improves cardiac function in rats with heart failure after myocardial infarction, 125
Neuroprotection
Effect of two different neuroprotection systems on microembolization during carotid artery stenting (letter), 382
Nitric oxide
Acute consumption of flavanol-rich cocoa and the reversal of endothelial dysfunction in smokers, 1276
Nitric oxide synthase
Suppression of endothelial progenitor cells in human coronary artery disease by the endogenous nitric oxide synthase inhibitor asymmetric dimethylarginine, 1693
Noncontact mapping
Global endocardial electrical restitution in human right and left ventricles determined by noncontact mapping, 1067

Non–ST-segment elevation acute coronary syndromes
Effects of clopidogrel on the rebound hypercoagulable state after heparin discontinuation in patients with acute coronary syndromes (correspondence), 1582
Evolution in cardiovascular care for elderly patients with non–ST-segment elevation acute coronary syndromes, 1479
Implications of blood transfusions for patients with non–ST-segment elevation acute coronary syndromes, 1490
Year in non–ST-segment elevation acute coronary syndromes, 906
Nuclear factor-kappa B
Enhanced plasma levels of oxidized low-density lipoprotein increase circulating nuclear factor-kappa B activation in patients with unstable angina, 799
Nurse specialists
Bridging the resource gap in heart failure expertise and management: the underacknowledged role of nurse specialists (letter), 1961
Obesity
The forgotten majority, 1225
Release of C-reactive protein in response to inflammatory cytokines by human adipocytes: linking obesity to vascular inflammation (correspondence), 1112
Obstructive epicardial coronary disease
Myocardial infarction in the absence of obstructive epicardial coronary disease (letter), 740
Occlusion
Aspirin, but not clopidogrel, reduces collateral conductance in a rabbit model of femoral artery occlusion, 994
Intracoronary fibrin-specific thrombolytic infusion facilitates percutaneous recanalization of chronic total occlusion, 793
Off-pump coronary artery bypass grafting
Off-pump coronary artery surgery for reducing mortality and morbidity, 872
Olive oil
Phenolic content of virgin olive oil improves ischemic reactive hyperemia in hypercholesterolemic patients, 1864
Orthostatic tolerance
Increased postural sway in control subjects with poor orthostatic tolerance, 1309
Ostial left anterior descending artery stenosis
Effectiveness of sirolimus-eluting stent implantation for the treatment of ostial left anterior descending artery stenosis with intravascular ultrasound guidance, 787
Outcomes
Application of evidence-based medical therapy is associated with improved outcomes after percutaneous coronary intervention and is a valid quality indicator, 1473
Clinical and angiographic outcome after implantation of drug-eluting stents in bifurcation lesions with the crush stent technique, 613
Electrocardiographic predictors of cardiovascular outcome in women, 51
Evolution in cardiovascular care for elderly patients with non–ST-segment elevation acute coronary syndromes, 1479
Five-year outcomes after coronary stenting versus bypass surgery for the treatment of multivessel disease, 575
Flow-mediated vasodilation predicts outcome in patients with chronic heart failure, 1011
Improving the outcome of childhood pulmonary arterial hypertension (editorial), 705
Influence of race on health status outcomes one year after an acute coronary syndrome, 1838
Long-term clinical outcome after fractional flow reserve-guided percutaneous coronary intervention in patients with multivessel disease, 438
More risk factors affecting heart failure outcomes! (editorial), 1027
Nine-month outcome of patients treated by percutaneous coronary interventions for bifurcation lesions in the recent era, 606
Operative and late coronary artery bypass grafting outcomes in matched African-American versus Caucasian patients, 1526
Outcomes and risks of granulocyte colony-stimulating factor in patients with coronary artery disease, 1643
Prior aspirin use and outcomes in elderly patients hospitalized with acute myocardial infarction, 967
Relation between patients' outcomes and the volume of cardioverter-defibrillator implantation procedures performed by physicians treating Medicare beneficiaries, 1536
Relationship between operator volume and adverse outcome in contemporary percutaneous coronary intervention practice, 625
Year in epidemiology, health services, and outcome research, 1362
Oxidized low-density lipoprotein
Enhanced plasma levels of oxidized low-density lipoprotein increase circulating nuclear factor-kappa B activation in patients with unstable angina, 799
$P2Y_{12}$ receptor
Matching the evaluation of the clinical efficacy of clopidogrel to platelet function tests relevant to the biological properties of the drug, 638
Pacemakers
Magnetic resonance imaging in patients with cardiac pacemakers (letter), 561
Monitored atrial fibrillation duration predicts arterial embolic events in patients suffering from bradycardia and atrial fibrillation implanted with antitachycardia pacemakers, 1913
Pacing
Acute hemodynamic benefits of bi-atrial atrioventricular sequential pacing with the optimal atrioventricular delay, 320
Acute hemodynamic effects of pacing in patients with Fontan physiology, 1937
Cardiac resynchronization with sequential bi-ventricular pacing for the treatment of moderate to severe heart failure, 2298
Cost-effectiveness of cardiac resynchronization therapy in the Comparison of Medical Therapy, Pacing, and Defibrillation in Heart Failure (COMPANION) trial, 2311
Hemodynamic effect of intrinsic conduction during left ventricular pacing as compared to biventricular pacing, 2305
Impact of conventional versus biventricular pacing on hemodynamics and tissue Doppler imaging indices of resynchronization in post-operative children with congenital heart disease, 2284
Incremental benefit of rate-adaptive pacing on exercise performance during cardiac resynchronization therapy, 2292
Potential proarrhythmic effects of biventricular pacing, 2340
Paclitaxel-eluting stents
Effect of variable dose and release kinetics on neointimal hyperplasia using a novel paclitaxel-eluting stent platform, 253
Pancreas transplantation
Cross-sectional assessment of the effect of kidney and kidney-pancreas transplantation on resting left ventricular energy metabolism in type 1 diabetic-uremic patients, 1085
Papillary muscle dysfunction
Papillary muscle dysfunction attenuates ischemic mitral regurgitation in patients with localized basal inferior left ventricular remodeling, 113
Paroxysmal atrial fibrillation
Predictors of non-pulmonary vein ectopic beats initiating paroxysmal atrial fibrillation, 1054
Patent foramen ovale
Patent foramen ovale: current pathology, pathophysiology, and clinical status, 1768
Patent foramen ovale/atrial septal defect closure and migraine: searching the rationale for the procedure (letter), 737
Peak systolic pressure gradient
Doppler echocardiographic profile and indexes in the evaluation of aortic coarctation in patients before and after stenting, 1045
Pediatric cardiology

Percutaneous coronary interventions
Achieving door-to-balloon times that meet quality guidelines, 1236
Application of evidence-based medical therapy is associated with improved outcomes after percutaneous coronary intervention and is a valid quality indicator, 1473
Distal myocardial protection during percutaneous coronary intervention, 1434
Economic effects of extended clopidogrel therapy—a word of caution (letter), 1376
Emergency coronary artery bypass surgery for percutaneous coronary interventions: changes in the incidence, clinical characteristics, and indications from 1989 to 2003, 2004
Five-year follow-up of the argentine randomized trial of coronary angioplasty with stenting versus coronary bypass surgery in patients with multiple vessel disease (ERACI II), 582
Intracoronary fibrin-specific thrombolytic infusion

facilitates percutaneous recanalization of chronic total occlusion, 793
Lipoprotein lipase gene polymorphisms and the risk of target vessel revascularization after percutaneous coronary intervention, 1093
Long-term clinical outcome after fractional flow reserve-guided percutaneous coronary intervention in patients with multivessel disease, 438
Long-term cost effectiveness of early and sustained dual oral antiplatelet therapy with clopidogrel given for up to one year after percutaneous coronary intervention, 761
Manual thrombus-aspiration improves myocardial reperfusion, 371
Mean platelet volume on admission predicts impaired reperfusion and long-term mortality in acute myocardial infarction treated with primary percutaneous coronary intervention, 284
Nine-month outcome of patients treated by percutaneous coronary interventions for bifurcation lesions in the recent era, 606
Platelet reactivity in patients and recurrent events post-stenting, 1820
Randomized evaluation of the TriActiv balloon-protection flush and extraction system for the treatment of saphenous vein graft disease, 1677
Reducing the risk of emergency bypass surgery for failed percutaneous coronary interventions, 2010
Relationship between operator volume and adverse outcome in contemporary percutaneous coronary intervention practice, 625
Stenting or surgery (editorial), 589
X-Sizer for thrombectomy in acute myocardial infarction improves ST-segment resolution, 246

Percutaneous laser myocardial revascularization
Blinded, randomized, placebo-controlled trial of percutaneous laser myocardial revascularization to improve angina symptoms in patients with severe coronary disease, 1812

Percutaneous mitral valve repair
Percutaneous mitral valve repair using the edge-to-edge technique: 6 month results of the EVEREST, 2311
Percutaneous mitral valve repair with the edge-to-edge technique: a surgeon's perspective, 2141

Perindopril
Can perindopril delay the onset of heart failure in Duchenne muscular dystrophy? (letter), 1781

Perioperative genomics
New paradigms in cardiovascular medicine, 1965

Peripheral arterial disease
Subclinical peripheral arterial disease and incompressible ankle arteries are both long-term prognostic factors in patients undergoing coronary artery bypass grafting, 815

Pharmaceuticals
On the selling of pharmaceuticals, 1953

Pharmacodynamics
Development of a safe and effective pediatric dosing regimen for sotalol based on population pharmacokinetics and pharmacodynamics in children with supraventricular tachycardia, 1322

Pharmacokinetics
Development of a safe and effective pediatric dosing regimen for sotalol based on population pharmacokinetics and pharmacodynamics in children with supraventricular tachycardia, 1322

Phosphodiesterase-5 inhibitor
Combined use of ibutilide as an active control with intensive electrocardiographic sampling and signal averaging as a sensitive method to assess the effects of tadalafil on the human QT interval, 678

Phospholipase A2
Circulatory secretory phospholipase A2 activity predicts recurrent events in patients with severe acute coronary syndromes, 1249

PLAATO system
Percutaneous left atrial appendage transcatheter occlusion (PLAATO system) to prevent stroke in high-risk patients with rheumatic atrial fibrillation, 9

Plasma protein-A
Pregnancy-associated plasma protein-A and acute coronary syndromes: cause or consequence? (letter), 1583

Plasma renin
Arg389Gly á-adrenoceptor polymorphism and catecholamine effects on plasma-renin-activity, 2111

Plasma tissue factor
Plasma tissue factor plus activated peripheral mononuclear cells activate factors VII and X in cardiac surgical wounds, 707

Plasminogen activator inhibitor-1
Downregulated expression of plasminogen activator inhibitor-1 augments myocardial neovascularization and reduces cardiomyocyte apoptosis after acute myocardial infarction, 536

Platelets
Clopidogrel (editorial), 646
Clopidogrel effect on platelet reactivity in patients with stent thrombosis, 1827
Matching the evaluation of the clinical efficacy of clopidogrel to platelet function tests relevant to the biological properties of the drug, 638
Mean platelet volume on admission predicts impaired reperfusion and long-term mortality in acute myocardial infarction treated with primary percutaneous coronary intervention, 284
Overestimation of platelet aspirin resistance detection by thrombelastograph platelet mapping and validation by conventional aggregometry using arachidonic acid stimulation, 1705
Platelet reactivity in patients and recurrent events post-stenting, 1820
Platelet response to low-dose enteric-coated aspirin in patients with stable cardiovascular disease, 1258

Platypnea-orthodeoxia syndrome
Patent foramen ovale: current pathology, pathophysiology, and clinical status, 1768

Polymorphic ventricular tachycardia
Malignant entity of idiopathic ventricular fibrillation and polymorphic ventricular tachycardia initiated by premature extrasystoles originating from the right ventricular outflow tract, 1288

Polymorphisms
Genetic polymorphism on endothelial nitric oxide synthase affects endothelial activation and inflammatory response during the acute phase of myocardial infarction, 1101
Lipoprotein lipase gene polymorphisms and the risk of target vessel revascularization after percutaneous coronary intervention, 1093

Positron emission tomography
Extent of perfusion–F18-fluorodeoxyglucose positron emission tomography mismatch determines mortality in medically treated patients with chronic ischemic left ventricular dysfunction, 1264
Year in cardiac imaging, 542

Posture
Increased postural sway in control subjects with poor orthostatic tolerance, 1309

Preconditioning
Remote ischemic preconditioning provides early and late protection against endothelial ischemia-reperfusion injury in humans, 450

Pregnancy
Valvular heart disease and pregnancy, 223, 403

Pregnancy-associated plasma protein-A
Pregnancy-associated plasma protein-A and acute coronary syndromes: cause or consequence? (letter), 1583

Professional competency
Determination of professional competency in a rapidly changing environment, 1996

Prosthetic heart valves
Valvular heart disease and pregnancy, 403

Pulmonary arterial hypertension
Ambrisentan therapy for pulmonary arterial hypertension, 529
Effects of long-term bosentan in children with pulmonary arterial hypertension, 697
Improving the outcome of childhood pulmonary arterial hypertension (editorial), 705

Pulmonary valve replacement
Time course of diastolic and systolic function improvement after pulmonary valve replacement in adult patients with tetralogy of Fallot, 1559

Pulmonary vein ectopic beats
Predictors of non-pulmonary vein ectopic beats initiating paroxysmal atrial fibrillation, 1054

Pulmonary vein isolation
Efficacy and safety of circumferential pulmonary vein isolation using a novel cryothermal balloon ablation system, 1902
Pulmonary vein isolation as an end point for left atrial circumferential ablation of atrial fibrillation, 1060
Trigger activity more than three years after left atrial linear ablation without pulmonary vein isolation in patients with atrial fibrillation, 338

Pulse wave velocity
Effects of fluvastatin on the carotid arterial media as assessed by integrated backscatter ultrasound as compared to pulse wave velocity, 2031
Normal vascular aging: differential effects on wave reflection and aortic pulse wave velocity, 1753

Pyloric spasm
Acute pyloric spasm and gastric hypomotility, 327

QRS complex
Electrical signals applied during the absolute refractory period: an investigational treatment for advanced heart failure in patients with normal QRS duration, 2229
Electrocardiographic predictors of cardiovascular outcome in women, 51
Mechanical dyssynchrony assessed by Doppler tissue imaging is a powerful predictor of mortality in congestive heart failure with normal QRS duration, 2237
QRS duration does not predict occurrence of ventricular tachyarrhythmias in patients with implanted cardioverter-defibrillators, 310
Significance of QRS complex duration in patients with heart failure, 2183

Wide QRS, narrow QRS (editorial), 317
QRS-T angle
Electrocardiographic predictors of cardiovascular outcome in women, 51
QT interval
Combined use of ibutilide as an active control with intensive electrocardiographic sampling and signal averaging as a sensitive method to assess the effects of tadalafil on the human QT interval, 678
Making a silk purse out of a sow's ear (editorial), 688
QTrr duration
Electrocardiographic predictors of cardiovascular outcome in women, 51
Quality of life
Functional status and quality of life after emergency revascularization for cardiogenic shock complicating acute myocardial infarction, 266
Improving quality of life after cardiogenic shock: do more revascularization! (editorial), 274
Quantitative coronary angiography
Physiologic assessment of jailed side branch lesions using fractional flow reserve, 633
Quantification of obstructive and nonobstructive coronary lesions by 64-slice computed tomography, 147
Quantitative ultrasound
Stabilization of carotid atheroma assessed by quantitative ultrasound analysis in non-hypercholesterolemic patients with coronary artery disease, 2022
Race
Gender, race, and cardiac care (editorial), 1852
Influence of race on health status outcomes one year after an acute coronary syndrome, 1838
Operative and late coronary artery bypass grafting outcomes in matched African-American versus Caucasian patients, 1526
Race and gender differences in C-reactive protein levels, 464
Radial artery
Vascular communications of the hand in patients being considered from transradial coronary artery angiography—Is the Allens test accurate?, 2013
Radiation
Fluoroscopically guided implantation of modern cardiac resynchronization devices: radiation burden to the patient and associated risks, 2335
Radiofrequency ablation
See also Ablation
Acute pyloric spasm and gastric hypomotility, 327
Atrial tachycardia arising from the coronary sinus musculature, 1921
Malignant entity of idiopathic ventricular fibrillation and polymorphic ventricular tachycardia initiated by premature extrasystoles originating from the right ventricular outflow tract, 1288
Randomized trials
Randomized, double-blind, placebo-controlled trial on restenosis prevention by the receptor tyrosine kinase inhibitor imatinib, 1999
Rate-adaptive pacing
Incremental benefit of rate-adaptive pacing on exercise performance during cardiac resynchronization therapy, 2292
Reactive hyperemia
Phenolic content of virgin olive oil improves ischemic reactive hyperemia in hypercholesterolemic patients, 1864
Recanalization
Intracoronary fibrin-specific thrombolytic infusion facilitates percutaneous recanalization of chronic total occlusion, 793
Regadenoson
Initial clinical experience with regadenoson, a novel selective A_{2A} agonist for pharmacologic stress SPECT myocardial perfusion imaging, 2069
Remodeling
Left ventricular dyssynchrony predicts right ventricular remodeling after cardiac resynchronization therapy, 2264
Papillary muscle dysfunction attenuates ischemic mitral regurgitation in patients with localized basal inferior left ventricular remodeling, 113
Prevalence and clinical significance of left atrial remodeling in competitive athletes, 690
Remote ischemic preconditioning
Remote ischemic preconditioning provides early and late protection against endothelial ischemia-reperfusion injury in humans, 450
Renal artery stenting
Evaluation of the safety and effectiveness of renal artery stenting after unsuccessful balloon angioplasty, 776
Renal artery stenting (editorial), 784
Renal transplantation
Cross-sectional assessment of the effect of kidney and kidney-pancreas transplantation on resting left ventricular energy metabolism in type 1 diabetic-uremic patients, 1085
Renin
Arg389Gly á-adrenoceptor polymorphism and catecholamine effects on plasma-renin-activity, 2111
Reperfusion
Mean platelet volume on admission predicts impaired reperfusion and long-term mortality in acute myocardial infarction treated with primary percutaneous coronary intervention, 284
Reperfusion therapy
Sustained benefit 20 years after reperfusion therapy in acute myocardial infarction, 15
Research
Associations between serum resistin levels and insulin resistance, inflammation, and coronary artery disease (correspondence), 379
Combined Angioplasty and Pharmacological Intervention Versus Thrombolysis Alone in Acute Myocardial Infarction (CAPITAL AMI Study), 417
Downregulated expression of plasminogen activator inhibitor-1 augments myocardial neovascularization and reduces cardiomyocyte apoptosis after acute myocardial infarction, 536
Efficacy and safety of fasudil in patients with stable angina, 1803
Erythropoietin induces neovascularization and improves cardiac function in rats with heart failure after myocardial infarction, 125
Five-year outcomes after coronary stenting versus bypass surgery for the treatment of multivessel disease, 575
Improved graft mesenchymal stem cell survival in ischemic heart with a hypoxia-regulated heme oxygenase-1 vector, 1339
Late incomplete stent apposition after sirolimus-eluting stent implantation, 1002
Long-term results (three to five years) of the Restenosis Instent: Balloon Angioplasty Versus Elective Stenting (RIBS) randomized study, 756
Percutaneous left atrial appendage transcatheter occlusion (PLAATO system) to prevent stroke in high-risk patients with rheumatic atrial fibrillation, 9
Randomized, double-blind, placebo-controlled trial on restenosis prevention by the receptor tyrosine kinase inhibitor imatinib, 1999
Task Force 7: training guidelines for research in pediatric cardiology, 1401
Treatment of ischemic limbs based on local recruitment of vascular endothelial growth factor-producing inflammatory cells with ultrasonic microbubble destruction, 899
U-shaped relationship of blood glucose with adverse outcomes among patients with ST-segment elevation myocardial infarction (correspondence), 178
Resistin
Associations between serum resistin levels and insulin resistance, inflammation, and coronary artery disease (correspondence), 379
Restenosis
Endothelial vasomotor dysfunction in the brachial artery is associated with late in-stent coronary restenosis, 648
Long-term results (three to five years) of the Restenosis Instent: Balloon Angioplasty Versus Elective Stenting (RIBS) randomized study, 756
Randomized, double-blind, placebo-controlled trial on restenosis prevention by the receptor tyrosine kinase inhibitor imatinib, 1999
RESTORE registry
RESTORE—from deduction to leap of faith (letter), 562
Resynchronization therapy
See Cardiac resynchronization therapy
Revascularization
Blinded, randomized, placebo-controlled trial of percutaneous laser myocardial revascularization to improve angina symptoms in patients with severe coronary disease, 1812
Functional status and quality of life after emergency revascularization for cardiogenic shock complicating acute myocardial infarction, 266
Improving quality of life after cardiogenic shock: do more revascularization! (editorial), 274
Lipoprotein lipase gene polymorphisms and the risk of target vessel revascularization after percutaneous coronary intervention, 1093
Revascularization in severe left ventricular dysfunction, 567
Rheumatic atrial fibrillation
Percutaneous left atrial appendage transcatheter occlusion (PLAATO system) to prevent stroke in high-risk patients with rheumatic atrial fibrillation, 9
Right ventricle
Global endocardial electrical restitution in human right and left ventricles determined by noncontact mapping, 1067
Right ventricular cardiomyopathy
Echocardiographic findings in patients with arrhythmogenic/right ventricular cardiomyopathy/dysplasia (letter), 1962
Right ventricular outflow tract
Cardiologists' worst nightmare (editorial), 1295
Malignant entity of idiopathic ventricular fibrillation and polymorphic ventricular tachycardia initiated by premature extrasystoles originating from the right ventricular outflow tract, 1288
Right ventricular remodeling
Left ventricular dyssynchrony predicts right

ventricular remodeling after cardiac resynchronization therapy, 2264

Risk factors
The forgotten majority, 1225
Impaired insulin sensitivity as an independent risk factor for mortality in patients with stable chronic heart failure, 1019
More risk factors affecting heart failure outcomes! (editorial), 1027
Novel metabolic risk factors for heart failure, 2054
Relationship between uncontrolled risk factors and C-reactive protein levels in patients receiving standard or intensive statin therapy for acute coronary syndromes in the PROVE IT-TIMI 22 trial, 1417

Risk stratification
Microvolt T-wave alternans for the risk stratification of ventricular tachyarrhythmic events, 75
Risk stratification of patients with classic angina pectoris and no history of coronary artery disease by dobutamine stress echocardiography (correspondence), 730

Robotically-assisted left ventricular epicardial leads
Follow-up of robotically-assisted left ventricular epicardial leads for cardiac resynchronization therapy, 2359

Saphenous vein grafts
Randomized evaluation of the TriActiv balloon-protection flush and extraction system for the treatment of saphenous vein graft disease, 1677

Scintigraphy
Noninvasive etiologic diagnosis of cardiac amyloidosis using ^{99m}Tc-3,3-diphosphono-1,2-propanodicarboxylic acid scintigraphy, 1076

***SCN5A* gene**
Developmental aspects of long QT syndrome type 3 and Brugada syndrome on the basis of a single *SCN5A* mutation in childhood, 331
High-risk for bradyarrhythmic complications in patients with Brugada syndrome caused by *SCN5A* gene mutations, 2100

Septal myectomy
Long-term effects of surgical septal myectomy on survival in patients with obstructive hypertrophic cardiomyopathy, 470
Prognostic impact of septal myectomy in obstructive hypertrophic cardiomyopathy (editorial), 477

Septal-to-posterior wall motion delay
Septal to posterior wall motion delay fails to predict reverse remodeling or clinical improvement in patients undergoing cardiac resynchronization system, 2208

Side branch lesions
Physiologic assessment of jailed side branch lesions using fractional flow reserve, 633

Simvastatin
Effects of aggressive versus conventional lipid-lowering therapy by simvastatin on human atherosclerotic lesions, 106

Single-photon emission computed tomography
Year in cardiac imaging, 542

Single-photon emission computed tomography myocardial perfusion imaging
ACCF/ASNC appropriateness criteria for single-photon emission computed tomography myocardial perfusion imaging (SPECT MPI), 1587
Initial clinical experience with regadenoson, a novel selective A_{2A} agonist for pharmacologic stress SPECT myocardial perfusion imaging, 2069

Sirolimus-eluting stents
See also Stents
Effectiveness of sirolimus-eluting stent implantation for the treatment of ostial left anterior descending artery stenosis with intravascular ultrasound guidance, 787
Endothelial dysfunction after sirolimus-eluting stent placement (editorial), 236
Evaluation of four-year coronary artery response after sirolimus-eluting stent implantation using serial quantitative intravascular ultrasound and computer-assisted grayscale value analysis for plaque composition in event-free patients, 1670
Late incomplete stent apposition after sirolimus-eluting stent implantation, 1002
Sirolimus-eluting stents associated with paradoxic coronary vasoconstriction, 231

Slow-flow phenomenon
Slow-flow phenomenon during carotid artery intervention with embolic protection devices, 1466

Smoking
Acute consumption of flavanol-rich cocoa and the reversal of endothelial dysfunction in smokers, 1276

Sotalol
Development of a safe and effective pediatric dosing regimen for sotalol based on population pharmacokinetics and pharmacodynamics in children with supraventricular tachycardia, 1322

Spironolactone
Adequacy of laboratory monitoring in patients treated with spironolactone for congestive heart failure, 845

Sports participation
Walking and sports participation and mortality from coronary heart disease and stroke, 1761

ST segment
Patients with prolonged ischemic chest pain and presumed-new left bundle branch block have heterogeneous outcomes depending on the presence of ST-segment changes, 29

Stable angina
Efficacy and safety of fasudil in patients with stable angina, 1803

Statins
Can low-density lipoprotein be too low? The safety and efficacy of achieving very low low-density lipoprotein with intensive statin therapy, 1411
Early and late benefits of high-dose atorvastatin in patients with acute coronary syndromes, 1405
Effects of fluvastatin on the carotid arterial media as assessed by integrated backscatter ultrasound as compared to pulse wave velocity, 2031
At the heart of the statin benefit (editorial), 1863
Pleiotropic effects of statins: benefit beyond cholesterol reduction?, 1855
Potential relevance of the multiple lipid-independent (pleiotropic) effects of statins in the management of acute coronary syndromes, 1425
Relationship between uncontrolled risk factors and C-reactive protein levels in patients receiving standard or intensive statin therapy for acute coronary syndromes in the PROVE IT-TIMI 22 trial, 1417

Stem cell(s)
Enhancing stem cell therapy through genetic modification (editorial), 1351
Human adult bone marrow mesenchymal stem cells repair experimental conduction block in rat cardiomyocyte cultures, 1943
Improved graft mesenchymal stem cell survival in ischemic heart with a hypoxia-regulated heme oxygenase-1 vector, 1339

Stem cell factor
Granulocyte colony-stimulating factor and stem cell factor improve contractile reserve of the infarcted left ventricle independent of restoring muscle mass, 1662

Stem cell transplantation
Dying stem cell hypothesis, 1799

Stenosis
Effectiveness of sirolimus-eluting stent implantation for the treatment of ostial left anterior descending artery stenosis with intravascular ultrasound guidance, 787
Head-to-head comparison of three-dimensional navigator-gated magnetic resonance imaging and 16-slice computed tomography to detect coronary artery stenosis in patients, 92
Intravascular ultrasound for the assessment of an ambiguous left main coronary stenosis (letter), 2145
Reduced systemic arterial compliance impacts significantly on left ventricular afterload and function in aortic stenosis, 291
Severe calcific aortic stenosis (editorial), 299

Stent(s)
See also Drug-eluting stents; Sirolimus-eluting stents
Clinical and angiographic outcome after implantation of drug-eluting stents in bifurcation lesions with the crush stent technique, 613
Clopidogrel effect on platelet reactivity in patients with stent thrombosis, 1827
Contemporary stent treatment of coronary bifurcations, 1446
Effect of variable dose and release kinetics on neointimal hyperplasia using a novel paclitaxel-eluting stent platform, 253
Effectiveness of sirolimus-eluting stent implantation for the treatment of ostial left anterior descending artery stenosis with intravascular ultrasound guidance, 787
Endothelial dysfunction after sirolimus-eluting stent placement (editorial), 236
Evaluation of four-year coronary artery response after sirolimus-eluting stent implantation using serial quantitative intravascular ultrasound and computer-assisted grayscale value analysis for plaque composition in event-free patients, 1670
FRONTIER stent registry, 592
Late incomplete stent apposition after sirolimus-eluting stent implantation, 1002
Sirolimus-eluting stents associated with paradoxic coronary vasoconstriction, 231

Stent fractures
Impact of stent fractures following femoropopliteal stenting (letter), 1961

Stenting
Doppler echocardiographic profile and indexes in the evaluation of aortic coarctation in patients before and after stenting, 1045
Evaluation of the safety and effectiveness of renal artery stenting after unsuccessful balloon angioplasty, 776
Five-year follow-up of the argentine randomized trial of coronary angioplasty with stenting versus coronary bypass surgery in patients with multiple vessel disease (ERACI II), 582
Five-year outcomes after coronary stenting versus

JACC Vol. 46, No. 12, 2005
December 20, 2005:2367–88

bypass surgery for the treatment of multivessel disease, 575
Impact of stent fractures following femoropopliteal stenting (letter), 1961
Local release of C-reactive protein from vulnerable plaque or coronary arterial wall injured by stenting, 237
Long-term results (three to five years) of the Restenosis Instent: Balloon Angioplasty Versus Elective Stenting (RIBS) randomized study, 756
Platelet reactivity in patients and recurrent events post-stenting, 1820
Renal artery stenting (editorial), 784
Stenting or surgery (editorial), 589
Triple versus dual antiplatelet therapy after coronary stenting, 1833

Strain rate imaging
Strain rate imaging differentiates transmural from non-transmural myocardial infarction, 864

Stress
Inhibition of cortisol production with metyrapone prevents mental stress-induced endothelial dysfunction and baroreflex impairment, 344

Stress echocardiography
See also Echocardiography
Association of myocardial ischemia with mortality and implanted cardioverter-defibrillator therapy in patients with coronary artery disease at risk of arrhythmic death, 1721

Stroke
Hospitalized patients with atrial fibrillation and a high risk of stroke are not being provided with adequate anticoagulation, 1729
Percutaneous left atrial appendage transcatheter occlusion (PLAATO system) to prevent stroke in high-risk patients with rheumatic atrial fibrillation, 9
Secondary stroke prevention with antiplatelet therapy with emphasis on the cardiac patient, 752
Walking and sports participation and mortality from coronary heart disease and stroke, 1761

Stroke volume
Thickening of the infarcted wall by collagen injection improves left ventricular function in rats, 714

Stromal cell-derived factor-1
Peritransplant ischemic injury is associated with up-regulation of stromal cell-derived factor-1, 1029

ST-segment elevation acute myocardial infarction
Manual thrombus-aspiration improves myocardial reperfusion, 371
U-shaped relationship of blood glucose with adverse outcomes among patients with ST-segment elevation myocardial infarction (correspondence), 178

Sudden death
Evidence for decreasing occurrence of sudden cardiac death associated with the marathon (correspondence), 1373

Supraventricular tachycardia
Development of a safe and effective pediatric dosing regimen for sotalol based on population pharmacokinetics and pharmacodynamics in children with supraventricular tachycardia, 1322

Sympathetic nerve stimulation
Selective increase of cardiac neuronal sympathetic tone, 1354

Sympathetic tone
Selective increase of cardiac neuronal sympathetic tone, 1354

Syncope
Increased postural sway in control subjects with poor orthostatic tolerance, 1309

Systemic arterial compliance
Reduced systemic arterial compliance impacts significantly on left ventricular afterload and function in aortic stenosis, 291

Systolic asynchrony
Diastolic asynchrony is more frequent than systolic asynchrony in dilated cardiomyopathy and is less improved by cardiac resynchronization therapy, 2250

Systolic function
Improvements in left ventricular diastolic function after cardiac resynchronization therapy are coupled to response in systolic performance, 2244
Time course of diastolic and systolic function improvement after pulmonary valve replacement in adult patients with tetralogy of Fallot, 1559
Usefulness of a comprehensive cardiovascular magnetic resonance imaging assessment for predicting recovery of left ventricular wall motion in the setting of myocardial stunning, 1747

Systolic velocity half-time index
Doppler echocardiographic profile and indexes in the evaluation of aortic coarctation in patients before and after stenting, 1045

Systolic ventricular dysfunction
Treatment order in managing systolic ventricular dysfunction (letter), 182

Tachyarrhythmias
Microvolt T-wave alternans for the risk stratification of ventricular tachyarrhythmic events, 75
QRS duration does not predict occurrence of ventricular tachyarrhythmias in patients with implanted cardioverter-defibrillators, 310

Tachycardia
Atrial tachycardia arising from the coronary sinus musculature, 1921
Catheter ablation of atypical atrial flutter and atrial tachycardia within the coronary sinus after left atrial ablation for atrial fibrillation, 83
Development of a safe and effective pediatric dosing regimen for sotalol based on population pharmacokinetics and pharmacodynamics in children with supraventricular tachycardia, 1322
Electrogram characteristics in postinfarction ventricular tachycardia, 667
Monitored atrial fibrillation duration predicts arterial embolic events in patients suffering from bradycardia and atrial fibrillation implanted with antitachycardia pacemakers, 1913
"The older the broader" (editorial), 675

Tadalafil
Combined use of ibutilide as an active control with intensive electrocardiographic sampling and signal averaging as a sensitive method to assess the effects of tadalafil on the human QT interval, 678

Target vessel revascularization
Lipoprotein lipase gene polymorphisms and the risk of target vessel revascularization after percutaneous coronary intervention, 1093

^{99m}Tc-3,3-diphosphono-1,2-propanodicarboxylic acid scintigraphy
Noninvasive etiologic diagnosis of cardiac amyloidosis using ^{99m}Tc-3,3-diphosphono-1,2-propanodicarboxylic acid scintigraphy, 1076

Tenecteplase
Combined Angioplasty and Pharmacological Intervention Versus Thrombolysis Alone in Acute Myocardial Infarction (CAPITAL AMI Study), 417

Tetralogy of Fallot
Adult with congenital heart disease, 1
Time course of diastolic and systolic function improvement after pulmonary valve replacement in adult patients with tetralogy of Fallot, 1559

Thin-cap fibroatheroma
In vivo intravascular ultrasound-derived thin-cap fibroatheroma detection using ultrasound radio frequency data analysis, 2038

Three-dimensional navigator-gated magnetic resonance imaging
Head-to-head comparison of three-dimensional navigator-gated magnetic resonance imaging and 16-slice computed tomography to detect coronary artery stenosis in patients, 92

Thrombectomy
X-Sizer for thrombectomy in acute myocardial infarction improves ST-segment resolution, 246

Thrombelastograph platelet mapping
Overestimation of platelet aspirin resistance detection by thrombelastograph platelet mapping and validation by conventional aggregometry using arachidonic acid stimulation, 1705

Thrombolysis
Combined Angioplasty and Pharmacological Intervention Versus Thrombolysis Alone in Acute Myocardial Infarction (CAPITAL AMI Study), 417

Thrombolysis in Myocardial Infarction score
Myocardial contrast echocardiography versus Thrombolysis in Myocardial Infarction score in patients presenting to the emergency department with chest pain and a nondiagnostic electrocardiogram, 920

Thrombolytic therapy
Intracoronary fibrin-specific thrombolytic infusion facilitates percutaneous recanalization of chronic total occlusion, 793

Thrombosis
Clopidogrel effect on platelet reactivity in patients with stent thrombosis, 1827

Thrombus-aspiration
Manual thrombus-aspiration improves myocardial reperfusion, 371

Ticlopidine
Triple versus dual antiplatelet therapy after coronary stenting, 1833

Tissue Doppler imaging
Impact of conventional versus biventricular pacing on hemodynamics and tissue Doppler imaging indices of resynchronization in post-operative children with congenital heart disease, 2284
Mechanical dyssynchrony assessed by Doppler tissue imaging is a powerful predictor of mortality in congestive heart failure with normal QRS duration, 2237

Tissue factor
Plasma tissue factor plus activated peripheral mononuclear cells activate factors VII and X in cardiac surgical wounds, 707

Training
ACCF/AHA/AAP Recommendations for Training in Pediatric Cardiology, 1378
Task Force 1: general experiences and training, 1382
Task Force 2: pediatric training guidelines for noninvasive cardiac imaging, 1384
Task Force 3: training guidelines for pediatric cardiac catheterization and interventional cardiology, 1388
Task Force 4: recommendations for training guidelines in pediatric cardiac electrophysiology, 1391
Task Force 6: training in transition of adolescent care and care of the adult with congenital heart disease, 1399
Training guidelines for pediatric cardiology fellowship programs, 1380
Variations in adult congenital heart disease training in adult and pediatric cardiology fellowship programs, 893
Transesophageal echocardiography
Single-step atrial thrombus exclusion and internal cardioversion of atrial fibrillation via a transesophageal echocardiography probe, 560
Transfer function method
Applicability and clinical relevance of the transfer function method in the assessment of baroreflex sensitivity in heart failure patients, 1314
Transfusions
Implications of blood transfusions for patients with non–ST-segment elevation acute coronary syndromes, 1490
Transmural necrosis
Duration of ischemia is a major determinant of transmurality and severe microvascular obstruction after primary angioplasty, 1229
Transposition of the great arteries
Adult with congenital heart disease, 1
Long-term results after primary one-stage repair of transposition of the great arteries and aortic arch obstruction, 1331
Transradial coronary artery angiography
Vascular communications of the hand in patients being considered from transradial coronary artery angiography—Is the Allens test accurate?, 2013
Transthoracic echocardiography
Functional assessment of mitral regurgitation by transthoracic echocardiography using standardized imaging planes, 302
Transvenous cardiac resynchronization system
Safety of transvenous cardiac resynchronization system implantation in patients with chronic heart failure: combined results of over two thousand patients from a multicenter study program, 2349
TriActiv system
Randomized evaluation of the TriActiv balloon-protection flush and extraction system for the treatment of saphenous vein graft disease, 1677
Tricuspid valve
Steps toward the percutaneous replacement of atrioventricular valves, 360
Troponin I
Frequency of cardiac troponin I mutations in families with hypertrophic cardiomyopathy in China (letter), 180
Troponins
Lack of prognostic impact of elevated troponin levels in patients without coronary artery disease (letter), 740
New risk score for patients with acute chest pain, non–ST-segment deviation, and normal troponin concentrations, 443
Troponin levels and acute coronary syndrome (letter), 741
Tumor necrosis factor receptor 1
Determinants of myocardial recovery in myocarditis (editorial), 1043
Myocardial expression of Fas and recovery of left ventricular function in patients with recent-onset cardiomyopathy, 1036
Tumor necrosis factor receptor type I
Plasma levels of tumor necrosis factor receptor type I during the acute phase following complicated myocardial infarction predicts survival in high risk patients, 2018
Ulnar artery
Vascular communications of the hand in patients being considered from transradial coronary artery angiography—Is the Allens test accurate?, 2013
Ultrafiltration
Early ultrafiltration in patients with decompensated heart failure and diuretic resistance, 2047
Ultrafiltration: a new approach toward mechanical diuresis in heart failure, 2052
Ultrafiltration versus usual care for hospitalized patients with heart failure: Relief for Acutely Fluid Overload Patients With Decompensated Heart Failure, 2043
Ultrasonic microbubbles
Treatment of ischemic limbs based on local recruitment of vascular endothelial growth factor-producing inflammatory cells with ultrasonic microbubble destruction, 899
Ultrasound
See also Intravascular ultrasound
Effects of fluvastatin on the carotid arterial media as assessed by integrated backscatter ultrasound as compared to pulse wave velocity, 2031
Stabilization of carotid atheroma assessed by quantitative ultrasound analysis in non-hypercholesterolemic patients with coronary artery disease, 2022
Ultrasound biomicroscopy
Functional and morphologic imaging of coronary atherosclerosis in living mice using high-resolution color Doppler echocardiography and ultrasound biomicroscopy, 720
Unstable angina
Enhanced plasma levels of oxidized low-density lipoprotein increase circulating nuclear factor-kappa B activation in patients with unstable angina, 799
Unstable coronary disease
C-reactive protein increase in unstable coronary disease, 1496
Upper loop re-entry
New electrocardiographic algorithm to differentiate upper loop re-entry from reverse typical atrial flutter, 524
Valvular heart disease
Concomitant surgical myocardial revascularization is still the gold standard for combined valvular and coronary heart disease (letter), 1782
Valvular heart disease and pregnancy, 223, 403
Vascular dysfunction
Vascular dysfunction in Chinese vegetarians: an apparent paradox? (correspondence), 1957
Vascular endothelial growth factor
Angiogenesis, arteriogenesis, and diabetes (editorial), 835
Increased vascular endothelial growth factor but impaired vascular endothelial growth factor receptor signaling in the myocardium of type 2 diabetic patients with chronic coronary heart disease, 827
Treatment of ischemic limbs based on local recruitment of vascular endothelial growth factor-producing inflammatory cells with ultrasonic microbubble destruction, 899
Vasoactive medications
In-hospital mortality in patients with acute decompensated heart failure requiring intravenous vasoactive medications, 57
Vasopressin
Vasopressin antagonism in heart failure, 1785
Vegetarians
Vascular dysfunction in Chinese vegetarians: an apparent paradox? (correspondence), 1957
Venous anatomy
Coronary venous anatomy, 68
Ventricular arrhythmias
Impact of upgrade to cardiac resynchronization therapy on ventricular arrhythmia frequency in patients with implantable cardioverter defibrillators, 2258
Ventricular dyssynchrony
Magnetic resonance imaging assessment of ventricular dyssynchrony: current and emerging concepts, 2223
Ventricular fibrillation
Factors influencing appropriate firing of the implanted defibrillator for ventricular tachycardia/fibrillation, 1712
Malignant entity of idiopathic ventricular fibrillation and polymorphic ventricular tachycardia initiated by premature extrasystoles originating from the right ventricular outflow tract, 1288
Ventricular tachyarrhythmias
Microvolt T-wave alternans for the risk stratification of ventricular tachyarrhythmic events, 75
QRS duration does not predict occurrence of ventricular tachyarrhythmias in patients with implanted cardioverter-defibrillators, 310
Ventricular tachycardia
Cardiologists' worst nightmare (editorial), 1295
Electrogram characteristics in postinfarction ventricular tachycardia, 667
Factors influencing appropriate firing of the implanted defibrillator for ventricular tachycardia/fibrillation, 1712
Malignant entity of idiopathic ventricular fibrillation and polymorphic ventricular tachycardia initiated by premature extrasystoles originating from the right ventricular outflow tract, 1288
"The older the broader" (editorial), 675
Who needs a defibrillator? (editorial), 1727
Viability testing
Revascularization in severe left ventricular dysfunction, 567
Virgin olive oil
Phenolic content of virgin olive oil improves ischemic reactive hyperemia in hypercholesterolemic patients, 1864
Vitamin C
Treatment of asymptomatic adults with elevated coronary calcium scores with atorvastatin, vitamin C, and vitamin E, 166
Vitamin E
Treatment of asymptomatic adults with elevated coronary calcium scores with atorvastatin, vitamin C, and vitamin E, 166

Vitamin K
Randomized trial comparing 1 mg of oral vitamin K with no treatment in the management of warfarin-associated coagulopathy in patients with mechanical heart valves (correspondence)
von Willebrand factor
Genetic polymorphism on endothelial nitric oxide synthase affects endothelial activation and inflammatory response during the acute phase of myocardial infarction, 1101
Walking
Walking and sports participation and mortality from coronary heart disease and stroke, 1761
Warfarin
Hospitalized patients with atrial fibrillation and a high risk of stroke are not being provided with adequate anticoagulation, 1729
Randomized trial comparing 1 mg of oral vitamin K with no treatment in the management of warfarin-associated coagulopathy in patients with mechanical heart valves (correspondence)
Trials and tribulations of non-inferiority: the Ximelagatran experience, 1986
White-coat hypertension
Masked hypertension and white-coat hypertension (editorial), 516
Prognosis of "masked" hypertension and "white-coat" hypertension detected by 24-h ambulatory blood pressure monitoring, 508
Women
Detection of high-risk young adults and women by coronary calcium and National Cholesterol Education Program Panel III guidelines, 1931
Differences in the management and prognosis of women and men who suffer from acute coronary syndromes, 1845
Electrocardiographic predictors of cardiovascular outcome in women, 51
Perspectives on dyslipidemia and coronary heart disease in women, 1628
Relationship between blood pressure and C-reactive protein in the Multi-Ethnic Study of Atherosclerosis (MESA), 1869
Relationship of serum digoxin concentration to mortality and morbidity in women in the Digitalis Interventional Group Trial, 497
Wounds
Plasma tissue factor plus activated peripheral mononuclear cells activate factors VII and X in cardiac surgical wounds, 707
Ximelagatran
Trials and tribulations of non-inferiority: the Ximelagatran experience, 1986
X-Sizer
X-Sizer for thrombectomy in acute myocardial infarction improves ST-segment resolution, 246
